

PASSING ABDOUL RAHIM OUEDRAOGO

Software Engineer | AI Engineer

✉ ouerahim456@gmail.com ☎ +22670477652 📍 Ouagadougou, Burkina Faso   

PROFIL

Software Engineer specializing in systems design, artificial intelligence, and fullstack development. Experienced in creating web applications, REST APIs, AI agents, and LLM-based solutions. Accustomed to working on complex projects involving software development, automation, performance optimization, and technological innovation.

PROFESSIONAL EXPERIENCE

Full Stack Developer Internship

1 October 2024 – 1 April 2025

ETP4A

Design and development of responsive web applications. - Use of modern frameworks and libraries such as Rails. - Learning about databases and content management systems. - Proficiency in programming languages such as HTML, CSS, and JavaScript. - Skills in web solution integration and SEO optimization.

Web Developer

2 January 2025 – 31 March 2025

Bakely Network

Design and development of responsive websites using HTML, CSS, Javascript, PHP and Python (Django) - Collaboration with the design team to create attractive and functional user interfaces. - API integrations - Testing and optimization - Documentation

Full-stack Web/Mobile Developer

1 April 2025 – Présent

YULCOM TECHNOLOGIE | Burkina Faso

Design and development of robust web/mobile applications. - Backoffice application creation. - RESTful API development and maintenance. - Participation in the testing and debugging phase

EDUCATION

Licence 2 – Software Engineer

2024 - Présent

Université Virtuel du Burkina Faso

SKILLS

- Python, Django REST Framework, Django
- Java, SprintBoot
- Laravel
- REACT, TypeScript
- Flutter
- REST API Design
- PostgreSQL
- MySQL
- SQLite
- MongoDB
- PyTorch, TensorFlow, Transformers
- LoRA Fine-Tuning, LLM Engineering, Agentic AI
- Retrieval-Augmented Generation (RAG)
- Prompt Engineering, AI Evaluation
- Git, GitHub, CI/CD, Docker, Linux, Monitoring

LANGUAGE

French	Natif
English	Intermédiaire

TRAININGS

-  **Full stack Developper**
ETP4A • 2026-07-31
-  **Laravel Developper**
Orange Digital Center • 2025-12-10
-  **Django Developper**
Bakely Network • 2025-01-16
-  **Agentic AI Challenge**
LabLab.ai • 2025-11-23
-  **NASA Space App Challenge**
Nasa International Space Apps • 2025-10-05
-  **Deep Learning by Pytorch**
Coursera • 2025-09-30
-  **Band AI Hackathon**
LabLab.ai • 2026-07-24
-  **Hugging Face**
AMD ACADEMY • 2026-05-12

PROJECTS

SYNOD CORE

Conversational AI agent based on language models. AI architecture design. Development of inference pipelines. Prompt management. Fine-tuning and performance optimization.

SYNOD CODE

AI Assistant specializing in code generation and analysis. Code generation. Code explanation. Error detection. Software development assistance.

SYNOD CYBER

Cybersecurity-oriented AI Assistant. Vulnerability analysis. Audit assistance. Explanation of cybersecurity concepts.

IBM watsonx Orchestrate Hackathon By LabLab.ai

Development of AI agents and automations. Use of orchestration technologies and intelligent agents. Collaborative work in a competitive environment.
